

<b>Symposia by Division</b>			
	<b>Division</b>	<b>Day</b>	<b>Title of Symposia</b>
	Analytical	Wednesday (All Day)	Application of Analytical Techniques to Environmental Issues
	Analytical	Thursday (All Day)	Mass Spectrometry of Biomolecules
	Analytical	Friday (All Day)	General Papers
	Analytical	Friday Morning	Recent Advances in Forensic Science
	Analytical	To Be Announced	Poster Session
	Biological	Wednesday (All Day)	General Papers
	Biological	Thursday (All Day) and Friday Morning	Frontiers in Nucleic Acid Chemistry
	Biological	To Be Announced	Poster Session
	Carbohydrate	Wednesday Morning	Sustainable Biomass Conversion
	Carbohydrate	Thursday Afternoon and Friday Afternoon	Recent Advances in Carbohydrate Chemistry
	Carbohydrate	Friday Morning	Recent Developments in Carbohydrate Chemistry (joint with Organic Chemistry)
	Chemical Education	Wednesday Morning	Using Online Assessment (Wiley Plus) in the Chemistry Classroom
	Chemical Education	Wednesday Afternoon	What's New in Precollege Chemistry Teaching
	Chemical Education	Wednesday Afternoon	NSF Programs that Support Undergraduate Education
	Chemical Education	Thursday Morning	General Papers
	Chemical Education	Thursday (All Day)	Poster Session
	Chemical Education	Friday Morning	Broadening Participation of Underrepresented Groups in the Chemical Sciences
	Chemical Education	Friday Morning	What's New in Introductory University Lecture Courses
	Chemical Education	Friday Afternoon	Broadening Participation of Underrepresented Groups in the Chemical Sciences
	Chemical Education	Friday Afternoon	What's New in Introductory University Lab Courses
	Chemical Education	Friday Afternoon	Undergraduate and High School Poster Session
	Chemical Education	Saturday Morning	High School Teacher Workshop
	Chemical Education	Saturday Morning	Undergraduate Oral Session
	Chemical Education	Saturday Morning	Audubon Institute Aquarium, Insectarium and Species Survival Center: Chemistry in the Aquarium, Gulf Oil Spill Clean up, Termite Control and Species Survival Center

	Computers in Chemistry	Thursday Morning	Frontiers in Computational Medicinal Chemistry (joint with Medicinal Chemistry)
	Computers in Chemistry	Thursday Afternoon	General Papers
	Computers in Chemistry	Thursday (All Day)	Poster Session
	Computers in Chemistry	Friday Morning	General Papers
	Environmental	Friday (All Day)	Gulf Oil Spill
	History	Thursday Morning	Remembering and Honoring Jack Stocker
	Industrial and Engineering (I&EC)	Wednesday (All Day)	Sustainable Biomass Mass Conversion to Hydrocarbon Products
	Industrial and Engineering (I&EC)	Thursday Afternoon	General Papers
	Inorganic	Wednesday (All Day)	Bioinorganic Chemistry
	Inorganic	Wednesday Afternoon and Thursday Afternoon	General Papers
	Inorganic	Thursday (All Day) and Friday (All Day)	Main Group Organometallics: Fundamentals and Applications
	Inorganic	To Be Announced	Poster Session
	Medicinal	Wednesday Morning	Recent Advances in Cancer Therapeutic Agents
	Medicinal	Wednesday Afternoon	Advances in CNS Therapeutics
	Medicinal	Thursday Morning	Frontiers in Computational Medicinal Chemistry (joint with Carbohydrate Chemistry)
	Medicinal	Thursday Afternoon	Advances in Ion Channel Mediated Therapeutics
	Medicinal	Friday (All Day)	General Papers
	Medicinal	To Be Announced	Poster Session
	Nanomaterials	Friday (All Day)	Nanostructured Materials: Synthesis, Characterization and Applications
	Nanomaterials	Thursday (All Day)	Poster Session
	Nuclear Chemistry and Technology (DNCT)	Thursday Morning	Radiation Sensors
	Nuclear Chemistry and Technology (DNCT)	Thursday Afternoon	Poster Session

	Nuclear Chemistry and Technology (DNCT)	Friday (All Day)	General Papers
	Organic	Wednesday (All Day)	Supramolecular Chemistry
	Organic	Thursday Morning	Advances in Modern Organic Synthesis
	Organic	Thursday Afternoon and Friday Afternoon	General Papers
	Organic	Friday Morning	Recent Developments in Carbohydrate Chemistry (joint with Carbohydrate Chemistry)
	Organic	To Be Announced	Poster Session
	Peptide	Wednesday (All Day)	Peptides in Biotechnology and Biomedicine
	Peptide	Thursday Morning	General Papers
	Peptide	To Be Announced	Poster Session
	Physical	Wednesday (All Day) and Thursday (All Day)	The Influence of Water and Other Solvents on Protein Structure and Function
	Physical	Wednesday (All Day), Thursday (All Day) and Friday (All Day)	Computational/Experimental Characterization of Advanced Materials
	Physical	Thursday Afternoon	General Papers
	Physical	Friday (All Day)	Protein Flexibility and Conformation Change
	Physical	To Be Announced	Poster Session
	Polymer	Wednesday Morning and Thursday Afternoon	Nonlinear Dynamic Approaches to Polymeric Materials
	Polymer	Wednesday Afternoon and Thursday Morning	Functional Polymer Surfaces and Interfaces
	Polymer	Thursday (All Day)	General Papers
	Polymer	Thursday Afternoon and Friday Morning	Simulations of Polymeric Systems: Bridging the Gap Between Experiments and Theory/Simulations
	Polymer	Friday (All Day)	Polymeric Materials based on Polypeptides and Their mimics: Synthesis, Characterization and Applications
	Polymer	To Be Announced	Poster Session
	Polymeric Materials: Science and Engineering (PMSE)	Friday (All Day)	Studies of Diverse Polymer Architectures: Dendrimers, Cyclic Polymers, and Other Complex Macromolecular Structure
	Polymeric Materials: Science and Engineering (PMSE)	To Be Announced	Poster Session

	Small Chemical Businesses (SCHB)	Wednesday (All Day)	Patent Law Developments
	Small Chemical Businesses (SCHB)	Thursday Morning	Resources for Start-up, Small, and Growing Chemical Businesses
	Small Chemical Businesses (SCHB)	Thursday Afternoon	Intellectual Property Issues for Small Chemical Businesses
	Small Chemical Businesses (SCHB)	Friday (All Day)	Small Business Successes in a Recovering Economy
	Society Committee on Education (SOCED) and 2YC3	Friday Morning	Student Skills and Academic Excellence: Preparing Students for Employment/Transfer
